2021 - 2021 * Gained hands-on experience in modern frontend development and collaborated with senior developers. * Developed user interfaces for mobile and web applications. * Learned industry best practices and coding standards. * Contributed to open-source projects.

Education

Bachelor of Science in Computer Science | Islamic University of Gaza, Palestine

2018 - 2022 * Graduated with Honors (3.8/4.0 GPA). * Led the university's programming club. * Completed capstone project on machine learning applications.

Projects

E-Commerce Platform

- Full-stack e-commerce solution with modern UI, payment integration, and admin dashboard.
- **Technologies:** React, Node.js, PostgreSQL, Stripe, Tailwind CSS

Task Management App

- Collaborative task management application with real-time updates, team features, and analytics dashboard.
- **Technologies:** Next.js, TypeScript, Prisma, Socket.io, React Query

Mobile Banking App

- Secure mobile banking application with biometric authentication, transaction history, and budget tracking.
- **Technologies:** React Native, Redux, Firebase, Node.js

API Gateway Service

- Microservices API gateway with authentication, rate limiting, and monitoring capabilities.
- **Technologies:** Node.js, Express, Redis, MongoDB, Docker

Design System

- Comprehensive design system with reusable components, documentation, and design tokens.
- **Technologies:** Storybook, React, Figma, TypeScript

Real-time Chat Platform

- Modern chat application with rooms, file sharing, and video calls, supporting thousands of concurrent users.
- **Technologies:** React, Socket.io, WebRTC, MongoDB, AWS
